### THE FAIR.

Sixth Annual Fair of the Cheboygan  
County Agricultural Society—A  
Fine Exhibit, and a Financial Suc-  
cess.

The Sixth Annual fair of the Cheboygan County Agricultural Society opened at the grounds of the Driving Park, Wednesday, and closed yesterday afternoon. The weather was quite cold, and sadly interfered with the exhibit and attendance, but notwithstanding, we are glad to say the exhibit was a success, and a credit to our county and the fair a success financially. The gate receipts were something over \$100, and from the sale of membership tickets quite a sum was realized. Several of our merchants contributed very much to the display. H. J. Miner, the clothier, made quite an attractive exhibit of goods in his line. Dr. Perrin had his cabinet of the taxidermist's art on exhibition, and it was the center of attraction. A. L. Fexer made a fine display of watches, clocks, and jewelry. L. T. Limpert had a case well filled with elegant jewelry, making a fine display. A. W. Westgate & Son's were on hand with a nicely arranged case of fine shoes. O. M. Clement made a fine display of samples of his stock of fine shoes. Wm. Erratt & Co. had cookstoves and heating stoves. McDonald & Coney harvesting machines bay rakes, etc. The Ladies Guild of St. James' church, and the ladies of the Independent Church Union were present, with a handsome display of needle and fancy work. Among the interesting relics we noticed two large volumes, ancient specimens of the Art Preservative, exhibited by Father DeSmet, of St. Mary's church. One was printed in 1620 and the other in 1667. Francis Stead also exhibited a small volume, printed about as early. Dr. Perrin also had some interesting relics on exhibition. W. T. Vanderbilt had a full representation of organs and various musical instruments from his store on Third Street.

The exhibit of fruit and vegetables, grain, etc., while not so large as some of the former fairs, was very fine, what there was of it. Apples, pears, grapes, crab apples, plums, elegant and luscious specimens, potatoes, large and handsome, of several varieties. Wheat, oats, corn, buckwheat, of the finest quality, pumpkins, mammoth in size; celery equal to the best; carrots, beets, cabbage, citrons, watermelons, onions, radishes, squash, turnips, parsnips, in fact, the whole vegetable family was there, that would be hard to excel in any section of the country. The live stock exhibition, while not as numerous as it should have been, was very fine, and attracted considerable attention. There was about 200 entries altogether. The cold weather prevailing the entire time, prevented many from attending.

### SPEED TRIALS.

Thursday there were four animals entered in the trial for speed by the following persons, John Mulvaugh, W. G. Boggs, W. A. Wedge and Frank Osier. Mulvaugh's Freckles won first premium, Wedge's horse second and Boggs third.

Friday afternoon four entries were made. James Duggan, Tom Hall, W. S. Humphrey, Daisy; T. A. Perrin, Oleate; John Mulvaugh, Freckles. In the first heat two very interesting races were witnessed, one between Tom Hall and Daisy for first place, and the other between Oleate and Freckles for second. Tom Hall won the heat in 2.57, Daisy 2nd, Oleate 3rd and Freckles 4th. The second heat was taken by Daisy in 2.57. The third by Oleate in 2.58. Tom Hall taking the 4th heat and first premium.

President Walton has requested us in behalf of the officers, to return thanks to our merchants and citizens who aided so largely in the success of the exhibit by their displays. We regret we are not able to give the full awards of the committees, but have not the time or space this week. The following is a partial list of the

### AWARDS—DRAFT HORSES.

Stallion, 1st prem, Wm B Ellis.

HORSES FOR ALL WORK.

Stallion, 1st prem, W B Ellis.

2d prem; buckwheat, A R Dodge, 1st

prem; white oats, Wm Stewart 1st prem,

A R Dodge 2d prem; Wheat, F Stead 1st

prem.

### HAY FEVER RESORT.

New Organization—Liberal Offer by  
Thompson Smith—Topinabee Will  
Probably be the Location of a Permanent  
Resort.

A new organization of hay fever sufferers has been formed and incorporated under chapter 125, law of 1871, with a capital stock of \$2,500, divided into 100 shares of \$25 each. The following officers have been chosen:

President—Geo. L. Pratt, Ridgeway, N. Y.

Secretary—Will E. Osborne, Antwerp, Ohio.

Treasurer—H. A. Draper, Jackson, Mich.

In addition there is a board of directors composed of five members. President Pratt spent Thursday in the village, and during his stay made arrangements with Thompson Smith for forty acres of land on Mullet Lake, near Topinabee station. Mr. Smith making him the following liberal offer, viz: Upon the completion of ten cottages, to cost not less \$150 each, during the seasons of 1884-85 he will deed them 20 acres, and ten additional cottages of the same cost, during the seasons of 1886-87 will secure the association a deed for an additional 20 acres, making a full 40 acre tract. Mr. Pratt says the parties interested in this project mean business and that if the Michigan Central railroad will grant the association the same inducements as the Grand Rapids & Indiana railroad have offered, to secure the location on the line of their road, there is no question but that the project will be successfully carried out, and the resort located at Topinabee station on the land donated by Mr. Smith. The success of the northern division of the G. R. & I. road is largely due to the numerous resorts that have been established in Northern Michigan, all of which have received liberal concessions from that company, and the result has been the road has secured a large and paying traffic. We believe that the Michigan Central managers will act in as liberal a manner as the G. R. & I. has, and feel confident that next season will see the work of improving the resort vigorously pushed forward. The officers of the association would like to be put in communication with all hay fever sufferers who would be inclined to join them in securing a resort where they can find relief from their affliction and at the same time have pleasant surroundings and pleasant associations. Any of the afflicted so disposed, would confer a favor by sending their address to either of the above named officers.

### Loss of the Minnehaha.

The scow Minnehaha, of Cheboygan, Capt. H. F. Todd master, fell a victim to Monday night's storm, going ashore in the bay at Northport. Capt. Todd returned home last evening. He says they were just going to cast anchor when she struck. The night was very dark and he had no idea she was so near shore until it was too late to save her. She did not go to pieces, but as it would have cost more than she was worth to get her off and repair, she was stripped and abandoned. Capt. Todd looks considerably the worse for his severe attack of rheumatism.

### PERSONAL.

ROY J. CRAM was in Cheboygan Tuesday morning.

DR. HARTLEY returned home from his visit in Chicago, Wednesday evening.

FRED FROST returned Sunday morning from his visit in the southern part of the state.

MISS LILLIE BAKER started Wednesday evening on the Atlantic for Toronto to attend school.

S. S. EDDY returned Thursday from Chicago, where he had been purchasing a fine stock for W. & A. McArthur's store.

STEWART HOWIE and family returned to Cheboygan Wednesday to again take up their residence. We are glad to welcome them back.

MISS LENA GUEST, who spent the summer with Miss Lillie Baker, left for her home in Ontario on the Atlantic Wednesday evening.

GUS KENBURG took advantage of the Messenger excursion to Alpena last week, to drop down and see his numerous friends in that burg.

J. W. ECK, of Mentor, paid the TRIBUNE office a pleasant call Monday. He reports rapid improvement being made in that portion of the county.

GEORGE PRATT, of Ridgeway, N. Y., President of the newly organized hay fever resort association, paid the TRIBUNE a pleasant call Thursday evening.

HARRY W. MCARTHUR started last Monday for Fargo, Dakota, where he will practice his profession. He expects to visit his mother in Cheboygan during the holidays.

MR. AND MRS. A. J. PADDOCK returned Thursday on the City of Mackinac, from a two weeks' trip. They spent several days in New York city, and report a very pleasant time, with fine weather, with the exception of the last day in the city.

### Death of John H. Conrad.

We have been shown a letter from the wife of John H. Conrad, to his mother, giving the particulars of the death of her husband last Monday evening. He had been sick with typhoid fever for three weeks, and then inflammation of the bowels attacked him and he died in three hours thereafter. His wife writes that his end was peaceful, his last words being: "It is all right, I am going home." She speaks highly of the kind treatment of friends to her husband during his illness, everything possible being done. The deceased was well known in Cheboygan, having resided here a number of years. All will join in sympathizing with the bereaved relatives, especially the wife, called upon to mourn the loss of a husband, and the bereaved mother called upon to mourn the death of a son, so soon after that of her life partner.

### Gene.

One year ago last May, Mr. J. E. Wharton came to spend the remaining days of his earthly life with his son, George G. Wharton. Everything that kind and dutiful children could do to minister to the comfort and well-being of an aged father, was done. On last Monday eve. death came as a welcome release from sufferings peculiar to one far advanced in life. The departed was born in Yorkshire, England. When 15 years old he went to Canada where he remained until coming here. He was an excellent English gentleman, his life was long and useful, his death was peaceful. His children, five in number, are useful honorable and successful.

"But souls that of his own good life partake,  
He loves as his own self; dear as his eye  
They are to him; He'll never them forsake;  
When they shall die, then God himself shall  
die;  
They live, they live in blessed eternity."

Meeting some eight or ten of the members of Prof. McAfferty's class in German, yesterday, we were surprised to hear each one speaking of the progress made by the class in two lessons as simply astonishing. They say that even more than their most sanguine expectations have been realized. They express wonder at the ease with which they grasp word and their meanings. No doubt this is due to the great illustrative power and ability of Professor McAfferty and his excellent system, the Natural Method. At the conclusion of each lesson, the Professor engages in easy conversation with the class, and will not allow an English word to be spoken. The class began with the following members: Miss Magoffin, Drs. Gerow and Perrin, Messrs. Cooper, Sutherland, Allair, Rollo, Kinney, Curry, and Weber.
